Log of changes made to Australian Certified Organic Standard 2017, appearing in ACOS 2019 v1.

| Section of ACOS | Change | New ACOS Section |
|----------------------|---|-------------------|
| Changes required for | or EU1584 | |
| Annex VI point 23 | Addition of text, "and only until 31st December 2020" regarding allowance of up to 5% non organic feed for EU market. | |
| | Addition of text, "45. For the purpose of cleaning and disinfection of frames, hives and combs, sodium hydroxide may be used" | |
| Annex VI point 45 | regarding beehives for EU market only. | Annex VI point 46 |
| Annex VI point 66 | Addition of text, "including subsequent amendments" regarding crop inputs. | Annex VI point 67 |
| Annex VI point 67 | Addition of text, "including subsequent amendments" regarding processing inputs. | Annex VI point 68 |
| | Addition of text, "68. Minerals (trace elements included), vitamins, amino acids, and micronutrients may be added to food products, | |
| | provided that: | |
| | (i) their use in food for normal consumption is directly legally required for legal sale of the food type in the EU. | |
| | (ii) for baby food or infant and follow on formulae, where such inputs are legally required by EU regulations 609/2013, commission | |
| | directive 2006/125EC, and/or 2006/141/EC. | |
| Annex VI point 68 | ", regarding processed products for the EU market only. | Annex VI point 69 |
| Changes required for | or COSMOS Harmonisation | |
| Section 6.6 | Removal of entire section 6.6. | |
| Section 6.6 | Addition of text, "Certification of cosmetic products is to COSMOS Standard. The COSMOS Standard and technical guides are available | |
| | from the links in Annex VIII" as required by COSMOS to achieve harmonisation. See communique from Australian Organic Ltd, or your | |
| Section 6.6 | certifier for more information. | |
| Section 6.6 | Removal of text, "In the case of cosmetics the International Nomenclature of Cosmetic Ingredients (INCI) system shall be used on all | |
| 3.5.20 | ingredient listings. | |
| 3.3.20 | ingredient iistings. | |
| Changes required for | or National Standard realignment | |
| Definitions | Added to Definitions: "Additives: Substances added to a product to affect its inherent quality." | |
| | Added to Definitions: Processing aids: "Substances intentionally used in the processing of products to fulfil an essential technological | |
| Definitions | purpose, and which do not exist in the final product in their original form. " | |
| 1.2 | Addition of text, "(excluding water and salt)" | |
| 3.1.11; 4.7.15 | Removed "as a guide", and changed "should" to "shall". | |
| | Addition of text, "Livestock only with a verifiable history of conformance with the Standard throughout their entire lives and which were | |
| | born on the production unit after it became subject to inspection and certification may be deemed certifiable for meat production." | |
| 3.1.14 | | |
| | Addition of text, "An operator transferring from (due to decertification or withdrawal) a Certification Body must include in the | |
| 3.1.20 | application to another Certification Body the details of any sanctions imposed by the former certifier." | |

| | Addition of text, "An operator who elects to transfer to another Certification Body will be subject to an initial inspection by the second | |
|----------------------|--|--|
| 3.1.21 | Certification Body prior to being certified by that organisation." | |
| 3.2.1 | Removed text, "quality", added "animal welfare" | |
| | Addition of text, "If the appeal is not resolved to the satisfaction of the operator, the operator has recourse through normal legal | |
| 3.3.10 | process." | |
| | Removed word "organic" - so effectively ALL products entering or leaving the operation must be recorded, this will include any by | |
| 3.4.1.3 | products, or non certified livestock and livestock products. | |
| | Removed text, "where fully excluded from contact with certified product (unless dedicated to organic use only). Replaced with "where | |
| 3.5.5 | rendered as new through allowable sanitation and sterilisation processes. " | |
| 3.5.6 | Removed text, "acceptable food grade gases", replaced with "food grade nitrogen or carbon dioxide" | |
| | Addition of text, "Certified Operators must not display any marketing, advertising material, or products in a manner that is likely to be | |
| 3.5.8 | misleading or confusing to consumers. " | |
| | Addition of text, "The requirements listed above in 3.5.10 – 3.5.14 also apply to any products to be sold, labelled or marketed as In | |
| 3.5.16 | Conversion to Organic, with the exception that in conversion ingredients are used in place of organic or biodynamic. " | |
| | Addition of text, "For products in which water constitutes greater than 70% of the product volume the organic ingredient percentage | |
| 3.5.17 | shall be listed per total product volume. This does not apply for reconstituted products." | |
| | Addition of text, "For livestock products, only the same in In Conversion, Organic, or Biodynamic status as is currently held by the | |
| 3.5.18 | production unit is allowed to be displayed on labels and marketing material." | |
| | Reference to 170kg N removed from body of ACOS (5.1.39, 4.2.7, 5.3.3), and added instead to EU Annex VI point 36. Added to 5.1.39: | |
| | "while minimising potential for nutrient leaching, erosion, or overgrazing". Added to 5.3.3 "excess nutrient leaching does not occur." | |
| 4.2.7; 5.1.39; 5.3.3 | | |
| | Addition of text, "In case of reasonable suspicion of land and / or product contamination, the certified operator shall advise the CO and | |
| 4.7.1 | provide factual evidence on the matter, and a proposed plan for management and monitoring of the potential contamination." | |
| 5.1.4 | Removed, "otherwise". | |
| 5.1.6 | Removed text, "but shall require three times the legal withholding period of the substance in question prior to killing." | |
| | Addition of text, "Dams and/or watering points shall be established to allow rotational grazing" and "Equipment must be cleaned and | |
| 5.1.37 | disinfected to minimise the spread of infection". | |
| | Addition of text, "Stocking rates and rotational grazing management shall take into consideration preventative disease management, | |
| | good pasture and ecological management, welfare of stock, while minimising potential for nutrient leaching, or overgrazing of watering | |
| 5.1.39 | points or other high traffic areas." | |
| 5.1.41 | Addition of text, "Waste must be removed as needed to minimise odours and prevent pest infestation." | |
| | Addition of text, "Where manure is stored, capacity must be sufficient for immediate needs, as well as additional storage to allow for | |
| 5.1.42 | instances where regular removal may not be possible." | |
| 5.1.55 | Removed text, "Systematic" | |

| Addition of text. "prevent contamination of organic products from recidues of previously handled non organic products (including | |

| Removed text,"or one full production cycle (whichever is longer)" | |
| Addition of text, "Polyploid or genetically engineered species are not allowed." | |
| Addition of text, "shall not be out of water for more than 30 seconds" | |
| Addition of text, "Clove oil, ice slurry, or carbon dioxide are permitted for the sedation of fish for pre-slaughter or transportation | |
| periods. Synthetic chemical tranquilisers are not permitted." | |
| Addition of text, "Minerals and vitamins used as feed supplements must be naturally sourced." | |
| Addition of text, "liquid fertilisersshould be used with care." | |
| Perlite - restriction added, "Permitted for nursery production". | |
| Vermiculite - restriction added, "Permitted for nursery production". | |
| Ayurvedic preprations added. | |
| Sticky Barriers and Traps added, with restriction, "Traps may include fruit fly bait stations only if mandated, and if fully enclosed in a | |
| manner which prevents contact with land or produce." | |
| Hydrogen peroxide added. | |
| Sea salts and salty water added, for plant pest and disease management. | |
| Potassium permanganate added. | · |

| | Addition of text, "Polyploid or genetically engineered species are not allowed." Addition of text, "shall not be out of water for more than 30 seconds" Addition of text, "Clove oil, ice slurry, or carbon dioxide are permitted for the sedation of fish for pre-slaughter or transportation periods. Synthetic chemical tranquilisers are not permitted." Addition of text, "Minerals and vitamins used as feed supplements must be naturally sourced." Addition of text, "liquid fertilisersshould be used with care." Perlite - restriction added, "Permitted for nursery production". Vermiculite - restriction added, "Permitted for nursery production". Ayurvedic preprations added. Sticky Barriers and Traps added, with restriction, "Traps may include fruit fly bait stations only if mandated, and if fully enclosed in a manner which prevents contact with land or produce." Hydrogen peroxide added. Sea salts and salty water added, for plant pest and disease management. |

| Annex II Added "Waxing of citrus fruit only allowed where required by export markets." Annex II Ayurvedic preparations added. Annex II Boric acid or crushed added. Annex II Boric acid added. Annex II Soasalts and salty water added. Annex II Soasalts and salty water added. Annex II Soasalts and salty water added. Annex II Potassium permanganate restriction removed. Annex II Sodium bicarbonate added. Annex II Potassium permanganate restriction removed. Annex II Sodium bicarbonate added. Annex III Sodium hydroxide added. Annex III Lactic acid - restriction to concentrated juices removed. Annex III Lactic acid - restriction to concentrated juices removed. Annex III Sodium hydroxide added. Annex III Sodium hydroxide added. Annex III Sodium itrate - milk category added, and refence to: "also egg whites" Annex III Sodium citrate - milk category added, and refence to: "also egg whites" Annex III Sodium citrate - milk category added, and refence to: "also egg whites" Annex III Sous bean gum - restriction added. Annex III Sous bean gum - restriction added. Annex III Ses war - restriction removed. Annex III Ses war - restriction removed. Annex III Ses war - restriction removed. Annex III Calcium chloride - categories added. Annex III Diamonium phosphate - added more clear statement, "Only for wines destined for EU market." Annex III Diamonium phosphate - added more clear statement, "Only for wines destined for EU market." Annex III Sodium Mydroxide - added with restriction for sugar only. Annex III Sodium Mydroxide - added with res | | | |
|--|-----------|---|--------------|
| Annex II Clay added. Annex II Soriic actif added. Annex II Potassium permagnante - restriction removed. Annex II Sea salts and salty water added. Annex II Sea salts and salty water added. Annex II Soriic Micropia actif a | Annex I | Added "Waxing of citrus fruit only allowed where required by export markets." | |
| Annex II Boric acid added. Annex II Boric acid added. Annex II Boric acid added. Annex II Botainal products, plant extracts added. Annex II Potassium permanganate - restriction removed. Annex II Sea salts and salty water added. Annex II Solium bicarbonate added. Annex II Solium bicarbonate added. Annex II Potassium permanganate restriction removed. Annex II Potassium permanganate restriction removed. Annex II Lactic acid - restriction to concentrated juices removed. Annex III Lactic acid - restriction to concentrated juices removed. Annex III Solium hydroxide added. Annex III Solium hydroxide added. Annex III Lectithin restriction modified. Annex III Lectithin restriction modified. Annex III Solium citrate - milk category added, and refence to: "also egg whites" Annex III Dotassium citrate - milk category added, and refence to: "also egg whites" Annex III Locust bean gum - restriction added. Annex III Locust bean gum - restriction for plant products added. Annex III Locust bean gum - restriction for plant products added. Annex III Locust bean gum - restriction for plant products added. Annex III Locust bean gum - restriction for plant products added. Annex III Calcium chloride - categories added. Annex III Calcium hydroxide - categories added. Annex III Calcium hydroxide - categories added. Annex III Cartic acid - categories added. Annex III Cartic acid - categories added. Annex III Cartic acid - categories added. Annex III Diamonium phosphate - added more clear statement, "Only for wines destined for EU market." Annex III Diamonium phosphate - added more clear statement, "Only for wines destined for EU market." Annex III Diamonium phosphate - added with restriction for sugar only. Annex III Diamonium phosphate - added with restriction for sugar only. | Annex II | , , , , | |
| Annex II Boric acid added. Annex II Potassium permanganate - restriction removed. Annex II Sea salts and salty water added. Annex II Sodium bicarbonate added. Annex II Potassium permanganate restriction removed. Annex II Sodium bicarbonate added. Annex II Potassium permanganate restriction removed. Addition of text, "Where used, additives and processing aids must not compromise the authenticity or quality of the organic product." Annex III Sodium hydroxide added. Annex III Sodium hydroxide added. Annex III Wood ash added. Annex III Wood ash added. Annex III Sodium citrate - milk category added, and refence to: "also egg whites" Annex III Sodium citrate - milk category added, and refence to: "also egg whites" Annex III Calcium citrate - milk category added, and refence to: "also egg whites" Annex III Sodium citrate - milk category added, and refence to: "also egg whites" Annex III Calcium citrate - milk category added, and refence to: "also egg whites" Annex III Calcium citrate - milk category added, and refence to: "also egg whites" Annex III Calcium citrate - milk category added, and refence to: "also egg whites" Annex III Calcium citrate - milk category added, and refence to: "also egg whites" Annex III Calcium citrate - milk category added. Annex III Calcium citrate - milk categories added. Annex III Calcium citrate - categories added. Annex III Carum citrate - categories added. Annex III Diamonium phosphate - added more clear statement, "Only for wines destined for EU market." Annex III Diamon | Annex II | , | |
| Annex II Potassium permanganate - restriction removed. Annex II Sea sats and salty water added. Annex II Sea sats and salty water added. Annex II Sodium bicarbonate added. Annex II Potassium permanganate restriction removed. Annex II Potassium permanganate restriction removed. Annex II Potassium permanganate restriction removed. Addition of text, "Where used, additives and processing aids must not compromise the authenticity or quality of the organic product." Annex III Lactic acid - restriction to concentrated juices removed. Annex III Sodium hydroxide added. Annex III Sodium hydroxide added. Annex III Sodium hydroxide added. Annex III Sodium ictrate - milk category added, and reference to: "also egg whites" Annex III Sodium citrate - milk category added, and reference to: "also egg whites" Annex III Locust bean gum - restriction added. Annex III Locust bean gum - restriction added. Annex III Locust bean gum - restriction added. Annex III Beas war - restriction added. Annex III Beas war - restriction for plant products added. Annex III Beas war - restriction to releasing agent for plant products added. Annex III Calcium chloride - categories added. Annex III Calcium chloride - categories added. Annex III Caruba war - categories added. Annex III Diammonium phosphate - added more clear statement, "Only for wines destined for EU market." Annex III Diammonium phosphate - added with restriction for sugar only. Annex III Diatonaceous earth - categories added. Annex III Diatonaceous earth - cate | Annex II | Garlic, extract or crushed added. | |
| Annex II Sea salts and salty water added. Annex II Sea salts and salty water added. Annex II Sodium bicarbonate added. Annex II Potassium permanganate restriction removed. Addition of text, "Where used, additives and processing aids must not compromise the authenticity or quality of the organic product." | Annex III Calcium hydroxide - categories added. Annex III Carnuba wax - added "releasing agent for plant products" Annex III Casein - categories added. Annex III Citric acid - categories added. Annex III Diammonium phosphate - added more clear statement, "Only for wines destined for EU market." Annex III Diatomaceous earth - categories added. Annex III Potassium hydroxide - added with restriction for sugar only. Annex III Silicon dioxide - restriction changed to all plant categories. | Annex III | Bentonite - restriction removed. | |
| Annex III Carnuba wax - added "releasing agent for plant products" Annex III Casein - categories added. Annex III Citric acid - categories added. Annex III Diammonium phosphate - added more clear statement, "Only for wines destined for EU market." Annex III Diatomaceous earth - categories added. Annex III Potassium hydroxide - added with restriction for sugar only. Annex III Silicon dioxide - restriction changed to all plant categories. | Annex III | Calcium chloride - categories added. | |
| Annex III Casein - categories added. Annex III Citric acid - categories added. Annex III Diammonium phosphate - added more clear statement, "Only for wines destined for EU market." Annex III Diatomaceous earth - categories added. Annex III Potassium hydroxide - added with restriction for sugar only. Annex III Silicon dioxide - restriction changed to all plant categories. | Annex III | Calcium hydroxide - categories added. | |
| Annex III Citric acid - categories added. Annex III Diammonium phosphate - added more clear statement, "Only for wines destined for EU market." Annex III Diatomaceous earth - categories added. Annex III Potassium hydroxide - added with restriction for sugar only. Annex III Silicon dioxide - restriction changed to all plant categories. | Annex III | Carnuba wax - added "releasing agent for plant products" | |
| Annex III Diammonium phosphate - added more clear statement, "Only for wines destined for EU market." Annex III Diatomaceous earth - categories added. Annex III Potassium hydroxide - added with restriction for sugar only. Annex III Silicon dioxide - restriction changed to all plant categories. | Annex III | Casein - categories added. | |
| Annex III Diatomaceous earth - categories added. Annex III Potassium hydroxide - added with restriction for sugar only. Annex III Silicon dioxide - restriction changed to all plant categories. | Annex III | Citric acid - categories added. | |
| Annex III Potassium hydroxide - added with restriction for sugar only. Annex III Silicon dioxide - restriction changed to all plant categories. | Annex III | Diammonium phosphate - added more clear statement, "Only for wines destined for EU market." | |
| Annex III Silicon dioxide - restriction changed to all plant categories. | Annex III | Diatomaceous earth - categories added. | |
| | Annex III | Potassium hydroxide - added with restriction for sugar only. | |
| Annex III Sodium hydroxide - "C" annotation removed. | Annex III | Silicon dioxide - restriction changed to all plant categories. | |
| | Annex III | Sodium hydroxide - "C" annotation removed. | |

| Annex III | Talc added. | |
|-----------|--|--|
| Annex III | Kaolin - added: "Extraction of propolis". | |
| Annex III | Lactic acid - added "M" anotation. | |
| Annex III | Sodium carbonate - added "M" annotation. | |
| Annex IV | Added,"Cleansers, disinfectants and sanitisers should be selected with consideration of avoidance of residual contamination, rapid biodegradability, low toxicity, worker safety, and low environmental impact of their manufacture, use, and disposal." | |
| Annex IV | Added, "This includes avoidance of known endocrine disrupting, ozone depleting, and trihalomethane forming compounds." | |
| Annex IV | Added "Storage of such chemicals must not allow contamination of certified products. " | |
| Annex IV | Alkali carbonates added. | |
| Annex IV | Bleach - "Up to 10% solution" added. | |
| Annex IV | Added "Must be biodegradable, low phosphate" under Detergents listing. | |
| Annex IV | lodine added. | |
| Annex IV | Lime added. | |
| Annex IV | Added Lactic and Phosphoric acids, with Restriction to Natural sources. | |
| Annex IV | Added Potassium permanganate (not to exceed 1% solution). | |
| Annex IV | Sodium bicarbonate added. | |
| Annex IV | Sodium borate added. | |
| Annex IV | Isopropyl alcohol - restriction removed. | |
| Annex V | "Should" changed to "shall'". | |
