

## 2023 Wine Awards Associate Scholarship Sponsorship

In support of the yearly Australian Organic Wine Awards, an associate scholarship concept has been developed to grow female talent and expand the ongoing legacy of the Awards. As part of the Award’s purpose of raising the prestige and profile of organic and biodynamic wine, this scholarship is designed to increase female leadership in the organic wine industry.

The scholarship will support a year-long journey. Alongside a role as an associate judge on the tasting panel, the scholar will have access to a range of development and learning opportunities, including mentoring from industry leaders.

It is intended that each year’s scholar will become a mentor for the following year’s winner. Several key sponsors, people and resources have been engaged to support the scholarship and ensure its ongoing success.

### Sponsorship Opportunity

	AOL Member and Non Member	\$5,000
Official sponsor of Associate Scholarship. Referenced as “Australian Organic Wine Awards Associate Scholarship, supported by xxx”		Y
